DETAILED ACTION

Response to Amendment

1. The amendment filed August 29, 2003, has been entered. Claims 15-28 have been amended as requested.
2. Said amendment is sufficient to withdraw the 112, 2nd rejections set forth in section 1-4 of the last Office Action.

Claim Rejections - 35 USC § 102

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
4. Claims 15-22 stand rejected under 35 USC 102(e) as being anticipated by US 6,057,023 issued to Shimono et al., as set forth in section 6 of the last Office Action.

Applicant has amended claim 15 to limit the yarn of fine and coarse filaments to being mechanically anchored in the textile support structure. Applicant argues this new limitation distinguishes the present invention from Shimono in that Shimono requires the use of a latex adhesive backcoat to bind the pile tufts (Amendment, paragraph spanning pages 9-10). The examiner respectfully disagrees.

Specifically, the limitation of “mechanically anchored” does not exclude the presence of an adhesive backcoat. Pile yarns tufted into a primary backing, as disclosed by Shimono, are inherently “mechanically anchored” at least to some extent. The addition of an adhesive backing

Art Unit: 1771

does not change the physical structure of the tufted yarns, but rather aids in their stability. As such, the anticipation rejection of claims 15-22 is maintained.

Claim Rejections - 35 USC § 103

5. Claims 23-28 stand rejected under 35 USC 103(a) as being unpatentable over the cited Shimono patent, as set forth in section 8 of the last Office Action.

With respect to this rejection, applicant merely traverses on the grounds that the reference does not teach the claimed degree of fineness. However, said argument is unpersuasive in that the rejection is not an anticipation rejection, but rather an obviousness rejection. In other words, the examiner never contended that the reference explicitly taught this feature. Therefore, the rejection is hereby maintained.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 1771

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
